Project Echo for Pediatric Care 2018-2020 Abusive head trauma prevention and other universal primary prevention strategies January 16, 2020 Rebecca Murray, CANPB

Provided by the University of Wisconsin-Madison Interprofessional Continuing Education Partnership (ICEP)

Intended Audience:

Pediatric emergency care professionals

Objectives:

As a result of this educational regularly scheduled series, learners will be able to:

- 1. Utilize new skills and guidelines determined to be safe for children when accessing pediatric trauma.
- 2. Identify proper tools and standardized practices in order to improve the diagnosis and treatment of pediatric patients.
- 3. Define roles and responsibilities of team members who triage pediatric emergencies in order to identify communication strategies that result in effective patient care.

Policy on Disclosure

It is the policy of the University of Wisconsin-Madison ICEP that the faculty, authors, planners, and other persons who may influence content of this CE activity disclose all relevant financial relationships with commercial interests* in order to allow CE staff to identify and resolve any potential conflicts of interest. Faculty must also disclose any planned discussions of unlabeled/unapproved uses of drugs or devices during their presentation(s). For this educational activity, all conflicts of interest have been resolved and detailed disclosures are listed below.

• The University of Wisconsin-Madison ICEP defines a commercial interest as any entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on, patients The University of Wisconsin-Madison ICEP does not consider providers of clinical service directly to patients to be commercial interests.

| Name/Role | Financial Relationship Disclosures | Discussion of Unlabeled/Unapproved uses of drugs/devices in presentation? |
|---------------------------------------|---|---|
| Jonathan Kohler, MD Presenter, Chair | No relevant financial relationships to disclose | No |
| Veronica Watson Coordinator | No relevant financial relationships to disclose | No |
| Randi Cartmill, Coordinator | No relevant financial relationships to disclose | No |
| Benjamin Eithun, MSN, RN, Coordinator | No relevant financial relationships to disclose | No |
| Kim Sprecker, OCPD Staff | No relevant financial relationships to disclose | No |
| Rebecca Murray, CANPB, Presenter | No relevant financial relationships to disclose | No |
| | | |

Accreditation Statem

In support of improving patient care, the University of Wisconsin–Madison ICEP is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC) to provide continuing education for the healthcare team.

Credit Designation Statements

American Medical Association (AMA)

The University of Wisconsin-Madison ICEP designates this live activity for maximum of 1.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

American Nurses Credentialing Center (ANCC)

The University of Wisconsin-Madison ICEP designates this live activity for a maximum of 1.0 ANCC contact hours. The University of Wisconsin-Madison School of Nursing is Iowa Board of Nursing provider 350. Continuing Education Units (CEUs)

The University of Wisconsin-Madison ICEP, as a member of the University Professional & Continuing Education Association (UPCEA), authorizes this program for 0.1 CEUs or 1 hours.

Disclaimer: All photos and/or videos included in the following presentation are permitted by subjects or are not subject to privacy laws due to lack of patient information or identifying factors

Claiming credit

Follow the instructions below, and contact us at projectecho@surgery.wisc.edu with any questions.

- 1. Create account with the UW Interprofessional Continuing Education Partnership https://ce.icep.wisc.edu
- 2. During the live presentation, and in the follow-up email, you will be provided a code. Text that code to a number we provide you, using a cell phone associated with your account.

Text **SUPTUL** to 608-260-7097

(save this number as **ECHO Credit**, it will never change)

3. All done!! Log onto ICEP to view or print your credit letter.

Abusive head trauma prevention and other universal primary prevention strategies

January 16, 2020

Prevention Board

- Independent board
- Advance statewide policy, public awareness and programming to strengthen families and prevent child maltreatment
- 20 members comprised of state government officials and public members

Mission and Vision

Mission

 Mobilize research and practices to prevent child abuse and neglect in Wisconsin

Vision

 Every child in Wisconsin grows up in a safe, stable, and nurturing environment

Strategic Plan

- Create and Advocate for Effective Public Policies
- Promote Evidence-Informed Practices and Develop Innovative Programs that Support Parents and Caregivers
- Collaborate with Key Stakeholders to Leverage Resources and Implement Prevention Initiatives
- Educate Professionals and Community Members on Child Abuse and Neglect Issue

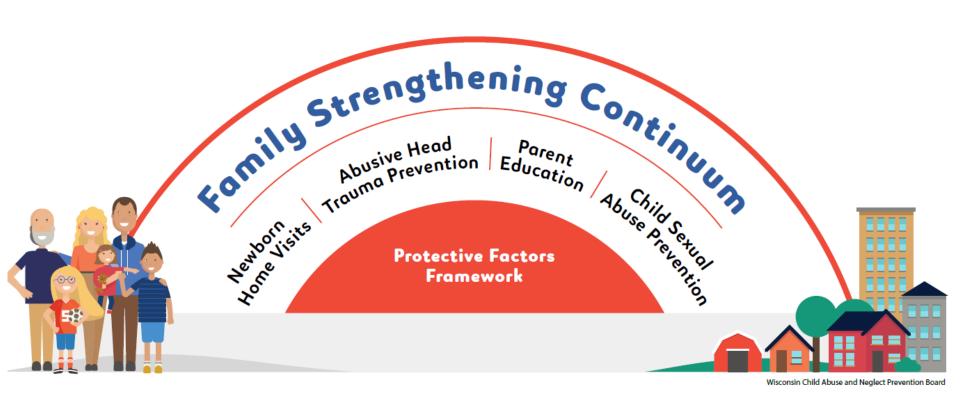

Multisector Approach

| | | _ | - |

| | | | |
| Dec. | - | | - |

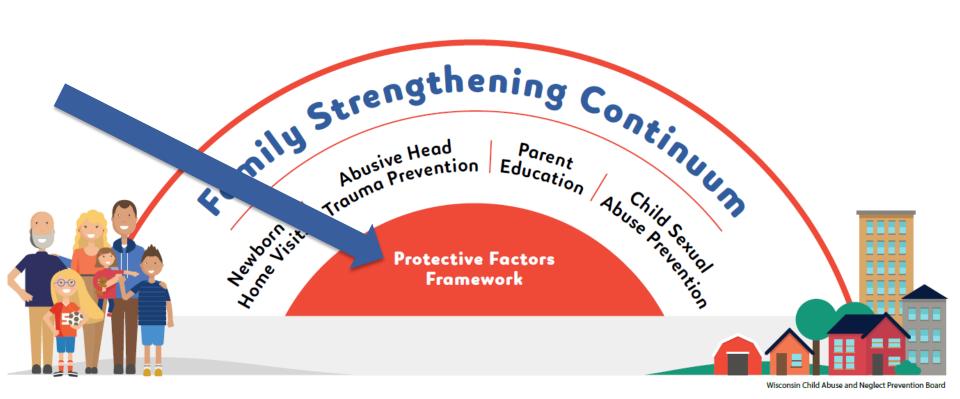

Preventing Child Abuse and Neglect

| Strategy | Approach |
|---|---|
| Strengthen economic supports to families | Strengthening household financial security Family-friendly work policies |
| Change social norms to support parents and positive parenting | Public engagement and education campaigns Legislative approaches to reduce corporal punishment |
| Provide quality care and education early in life | Preschool enrichment with family engagement Improved quality of child care through licensing and accreditation |
| Enhance parenting skills to promote healthy child development | Early childhood home visitation Parenting skill and family relationship approaches |
| Intervene to lessen harms and prevent future risk | Enhanced primary care Behavioral parent training programs Treatment to lessen harms of abuse and neglect exposure Treatment to prevent problem behavior and later involvement in violence |

How We Invest

Our Foundation

What are the Protective Factors?

Supports

Coping Strategies

Why Are Protective Factors Important?

The Five Protective Factors

- Social and Emotional Competence of Children
- Knowledge of Parenting and Child Development
- Social Connections
- Parental Resilience
- Concrete Support in Times of Need

Abusive Head Trauma Prevention

- The #1 trigger for shaken baby syndrome is frustration with a baby's crying.
- Approximately 25% of victims die.
- Vast majority of the infants will experience lifelong disabilities.

Sentinel Injuries

Sentinel injuries (SI) are minor, poorly explained injuries in pre-cruising infants; they include bruises, fractures and intraoral injuries

Crying and Sentinel Injuries

- Crying normally peaks at 1-2 months
- Sentinel Injuries peaked at 2-3 months
- Abusive head trauma peaks at 3-6 months

Summary of Findings

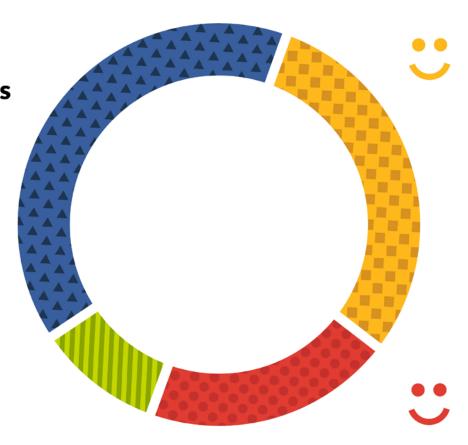

- Sentinel injuries preceded more severe abuse in 27.5% of abused infants
- Medical providers were reportedly aware of the sentinel injury in 42% of cases
- "Prevention window" between sentinel injury and more severe abuse ranged from 1 day to 7.3 months
- A history of or exam finding of bruising or intra-oral injury in pre-cruising infants should raise the concern of abuse

Parent Education

The Goal: more positive in your days.

Encouraging Desirable Behavior

Managing Misbehavior Teaching
New Skills
and Behaviors

Broad Research Base

One of the most effective evidence based parenting programs in the world.

More than 35 years of ongoing research

Translated into 21 languages.

Has been shown to work across cultures, socio-economic groups and in different kinds of family structures.

Population Level Effects

The CDC funded a trial in South Carolina introducing Triple P into 9 counties and comparing outcomes with 9 similar counties with care as usual. The results for the Triple P counties:

- Fewer injury-related ER visits
- Fewer out of home placements
- Fewer (slower growth) of substantiated cases of maltreatment

The Opportunity
